

WARS

June 1, 1967

The final meeting of the year for the Wellesley Amateur Radio Society will be held on Tuesday, 6 June in the clubroom.

The subject of the meeting will be the coming ARRL Field Day. We have been promised a mobile generator from the Fire Department and have petitioned the Board of Selectman for the use of the top of the aquaduct on Wellesley Ave. just East of the Country Club.

All those interested in participating on 24 June, should attend the meeting plus anyone who just wants to join in the fun of planning. The meeting will include.

1. Selection of actual equipment and operating frequencies to be used.
2. Sign up of volunteers for various tasks. (The sign up for the hours from midnight to 6:00 a.m. should show who the real Hams are.)
3. Decision on locations for antennas. (Take a look at the location before the meeting, if you can, but we will have a map.)

This Field Day will mark the first event the club has sponsored in years, other than the monthly meetings. Let's all get out and show that we are an active club and that we can score the most points in New England in our class.

See you on June 6th.
